It gives me great pleasure to present to you the new edition of our school magazine 'Aryaman' for the session 2025-26. This magazine is a beautiful reflection of the creativity, hard work and achievements of our students and teachers. Education is not just about books and examinations. It is about building character, values and a vision for the future.

As Dr. A.P.J. Abdul Kalam said, "Learning gives creativity, creativity leads to thinking, thinking provides knowledge, and knowledge makes you great."At Madhavarao Scindia Public School, Bareilly, we strive to provide an environment where every child is inspired to learn, to lead and to serve. We believe that each child is unique and has the power to shape a better tomorrow.

I sincerely appreciate the dedication of our Principal, teachers, parents and students who have worked together to make our school a centre of excellence. I am confident that this edition of 'Aryaman' will inspire and delight you all. As Mahatma Gandhi rightly said, "The future depends on what you do today." Editorial

It is with immense pride and joy that I present Aryaman 2025-26 - a vibrant kaleidoscope of the moments, milestones and accomplishments that have shaped another remarkable chapter in the journey of our school.

A school year is much more than the passage of time. It is a journey of discovery - of talents unveiled, challenges embraced, confidence strengthened and aspirations given wings. From academic endeavours and intellectual pursuits to cultural celebrations, sporting achievements, exhibitions and competitions, every experience has contributed its own colour to the canvas of this memorable session.

Within these pages are glimpses of those moments when our students dared to participate, persevered to excel and discovered that success is born not merely from winning, but from the willingness to learn, grow and rise beyond one's own expectations.

Education, in its truest sense, is about inspiring young minds to believe in possibilities. It is about nurturing the courage to dream, the determination to pursue those dreams and the values to make those achievements meaningful.

As you turn the pages of Aryaman, may you relive the spirit and accomplishments of 2025–26 and, more importantly, be inspired by the promise of all that lies ahead.

May every milestone celebrated here become the beginning of another dream, another endeavour and another journey towards excellence.

With warm wishes and faith in a brighter tomorrow,

Dr. Priyanka Sarkar
Editor-in-Chief

Alumni Speaks

It gives me immense pleasure to be featured in the esteemed Alumni Speaks column of MSPS Magazine. My journey in this school began in the 8th standard. I was a shy little girl back then, but the warm and encouraging environment, along with the wide range of co-curricular activities, gradually helped me come out of my shell. The discipline, confidence, and leadership qualities instilled in me during my school years have played a significant role in shaping the person I am today, and I am confident they will continue to guide me towards greater heights in the future. The years I spent at MSPS laid the foundation of my personality. Along with academics, the school and my teachers encouraged us to participate in debates, cultural activities, sports, exhibitions, and various competitions. MSPS gave me much more than academic knowledge. These experiences taught me the value of teamwork, leadership, and stepping outside my comfort zone. To my juniors, I would like to say that success does not come overnight. Stay curious, remain consistent, and never let temporary failures define your abilities. Explore your interests, work hard with honesty and dedication, and always remember that character is just as important as achievement. At the same time, cherish your school days while maintaining a balance between academics and extracurricular activities. These moments are truly once in a lifetime, so make the most of every opportunity, create beautiful memories, and live them to the fullest. I would like to end with a quote that has always inspired me: "The future belongs to those who keep showing up, even on the difficult days." Lastly, I will always remain grateful to my teachers and the entire Madhavrao Scindia Public School family for shaping me into the person I am today. It is an honour to call myself an alumna of this institution, and I hope to continue making my school proud in the years to come.

Upasana Singh
Class of 2016
Assistant Commissioner, Rural Development (UPPSC 2024)

Looking back, I realize that my school was far more than a place of learning - it was the foundation of everything I have achieved today. I joined in Class 7th and since then every classroom interaction, every challenge, and every opportunity to participate helped to shape my personality and broaden my perspective. The aspiration of becoming a Chartered Accountant was born during my school years. The journey was demanding, requiring resilience, patience, and unwavering focus. There were moments of self-doubt, but the values instilled by my school - discipline, integrity, and perseverance - served as a constant source of strength. We the Chartered Accountants, generally don't have any college life, thus our school life plays a very important role, as the skills taught in school helps us lead to our ultimate goal. In the journey to becoming a Chartered Accountant, I learned that PASS and FAIL are not opposites - they are both part of the process. A PASS rewards your efforts, while a FAIL refines your character and prepares you for greater success. Today, as a Chartered Accountant associated with a Big 5 firm, I understand that professional success is not built solely on academic excellence. Confidence, communication, leadership, and the ability to adapt are equally important, and these qualities were nurtured long before my professional journey began by my school. I remain deeply grateful to Madhavrao Scindia Public School for laying the groundwork that transformed aspirations into achievements and dreams into reality.

The person we become is often a reflection of the people and the places that guide us along the way. From my early kindergarten days to completing my class 12th, these 13 wonderful years, Madhavrao Scindia Public School truly feels like a second home where I grew up, learned, and evolved step by step. These years were filled with learning, friendships, memories, and experience that shaped me into the person I am today. The lessons I learned here were far beyond the textbooks. They instilled values of discipline, dedication, healthy competition, and confidence, laying a foundation on which my entire personality stands today. The grounds where we prayed and played, the labs where we practised what we read in the books, the AV hall where we explored our hidden talents through so many co curricular activities and so many other competitions removing all the stage fear we once had and the library where we read stories, magazines, books about so many other subjects and content. This place will always be an integral part of my life. It fills my heart with pride and nostalgia as I write this down. I wish every student of the school to enjoy every moment they spend here, laugh in the corridors, participate in all the events, and do not let the fear of future steal the joy of the present. Looking back, I realize that every stage here contributed in some way to who I am today. Today, I have completed my MBBS from Pandit Ram Prasad Bismil Autonomous State Medical College, Shahjahanpur, and I can confidently say that every lesson, every challenge, and every dream began right here. To all the juniors reading this, never stop dreaming, believe in yourself, keep working towards your goals, and this place will be your launchpad. I will always remain thankful for the guidance, care, nurturing and the opportunities throughout my school life, and I carry forward these memories with immense pride and respect.

Dr. Mahak Gangwar
Class of 2019

Joining Madhavrao Scindia Public School in Class XI turned out to be one of the most defining decisions of my life. Although I spent only two years at MSPS, the memories, lessons, and relationships I built there feel like they belong to a lifetime. Those years remain some of the most cherished chapters of my journey. MSPS was much more than just a school—it was a place that nurtured, encouraged, and believed in its students. Along with receiving unwavering academic support, I was fortunate to experience immense love, guidance, and encouragement from every teacher and staff member. From participating enthusiastically in extempore, debates, and Sports Day (a proud Green Housian for life!) to representing the school in science exhibitions and various co-curricular activities, every opportunity helped to shape my personality. The communication skills and self-belief that I carry with me today were nurtured during my time at Madhavrao Scindia Public School. Today, I am working as a Senior Associate at State Street, a global financial services company, where I am building my career in the finance sector. Every new milestone reminds me that the foundation laid during my school years continues to guide me. To my beloved juniors, I would like to leave you with one simple message: never stop exploring. The world is far bigger than you can imagine, and the possibilities are endless. Don't limit yourself because of fear or uncertainty. Dream boldly, stay curious, and never settle for less than your potential. Give your best in whatever you choose to pursue, and don't be afraid of setbacks—they are often stepping stones to something greater.
